INDEX TO VOLUME XII

(abs.) = Abstract. (E.) = Editorial

Abdomen, upper, *x*-ray examination of for malignant disease (abs.), 300.
Abé, Küchiro, Animal experiments to determine the radium castration dose (abs.), 86.
Abscess of lung complicated with massive collapse (abs.), 584.
Absorption coefficient of water and aluminum for hard roentgen rays (abs.), 203.
Absorptive powers of *x*-rays by various metals, standardization of (abs.), 507.
Adrenal glands, effect of roentgen rays on, 466.
Adrenal insufficiency, acute, caused by irradiation of a tumor in a patient with Addison's disease (abs.), 395.
Aikins, William Henry Beaufort, Obituary, 490.
Åkerlund, Åke, Diverticula of the stomach from a roentgenological point of view (abs.), 289; On a peculiar film fault (abs.), 292.
Allen, Bundy, Nasal accessory sinuses in infants and children (abs.), 496.
Allison, Robert G., Dilatation and atony of the stomach in severe diabetes (abs.), 496.
Altschul, W., Köhler's disease of the second metatarsus (abs.), 205; Ulcers of the outlet of the stomach (abs.), 206.
Amberson, J. Burns, The nature and differentiation of pleural annular shadows, 438.
American Radium Society, report of annual meeting of, 269.
American Roentgen Ray Society, program of annual meeting, 181.
Report of twenty-fifth annual meeting, 488.
Amundsen, P., Blood anomalies in radiologists and in persons employed in radiological service (abs.), 293.
Ancel, P. and Vintemberger, P., The stimulating action of roentgen rays upon embryonal development (abs.), 395.
Anderson, C. C., Regeneration of bone after intensive radiation of malignant disease (abs.), 283.
Andrews, George C. and MacKee, George M., Inverse square of distance law for filtered roentgen radiation, 58.
Annular shadows, pleural, nature and differentiation of, 438.
As indications of localized pneumothorax (abs.), 495.
Antrum, treatment of carcinoma of (abs.), 205.
Aortic and hilar regions, what produces the shadows in ? (abs.), 290.
Apfel, Harry, Hypertrophic pyloric stenosis in an infant (abs.), 282.
Appendix, demonstration of in roentgenogram (abs.), 494.
Arce, J. and Ivanissevich, Preoperative sterilization of hydatid cysts (abs.), 504.
Arens, R. A. and Stein, I. F., The interpretation of early fetal roentgenograms (abs.), 499.
Arnell, Sigfrid, A plastic means of protection for the *x*-ray treatment (abs.), 293; An apparatus for making sketches of radiograms (abs.), 282.
Arrillaga, F. C. and Izzo, B. A., Acute adrenal insufficiency caused by irradiation of a tumor in a patient with Addison's disease (abs.), 395.
Arthritis deformans cubiti, separations of capitulum humeri as a determining cause of (abs.), 287.
Pyogenic, roentgenographic changes in, 10.
Tuberculous, roentgenographic changes in, 11.
Ascarides, roentgenologic demonstration of in the intestinal tract (abs.), 87, 94.
Asnis, E. J. Clark, W. L. and Morgan, J. D., A preliminary report on a modified x-radiation technic (abs.), 508; Objections to the use of radium emanation in bare tubes, with clinical and histological observations, 519.
Aspray, Joseph and Herpel, Frederick, Technique for the roentgenologic examination of the nasal accessory sinuses, 573; Technique for mastoid examination, 491.
Assmann, H., The clinical diagnosis of multiple bone tumors (abs.), 207.
Atheroma, calcified, of the arch of the aorta (abs.), 502.
Atlas Typischer Röntgenbilder, Grashey (book review), 201.
Auricle, left, diagnosis of high grade dilatation of (abs.), 282.
Axmann, Injurious radiations from radio-electron bulbs (abs.), 207.

Baastrup, Chr. I., A case of diverticulum of the jejunum diagnosed by means of radiography (abs.), 283; Roentgenological studies of the inner surface of the stomach and of movements of the gastric contents (abs.), 283.
Back pain, lower, the rôle of ligamentous calcification in, 168.
Bactericidal power of the blood, effect of radiation on (abs.), 92.
Baensch, W., Pyelography (abs.), 399.
Baeuchlen, E., Recent results with deep roentgen therapy of pulmonary tuberculosis (abs.), 295.
Barringer, B. S., Radium treatment of carcinoma of the bladder and prostate (abs.), 295.
Beck, K., The roentgen treatment of laryngeal tuberculosis (abs.), 86.
Beeler, Raymond C. and Mertz, Henry O., The necessity of close cooperation between the roentgenologist and urologist in the diagnosis of double kidney, 157.
Beets, H. N. and Arens, Robert A., Physical measurements and comparative technic in relation to biologic dosage (abs.), 505.
Bellot, Anselme and Degrais, What is to be expected of radium treatment of cancer of the cervix? (abs.), 296.
Benoit, Jacques, The action of roentgen rays upon the testicle of the rooster (abs.), 396.
Bentzon, P. G. K., Roentgenological and experimental studies on the pathogenesis of dyschondroplasia (Ollier's disease) (abs.), 284.
Berkheiser, E. J., Multiple myelomas of children (abs.), 94.
Berthold, R. and Glocker, R., The protective action of building materials against roentgen rays (abs.), 86.
Beta rays of radium, biological action of (abs.), 281.
Bierman, Morris I., Diaphragmatic hernia, nontraumatic (abs.), 496.
Biermer, L., Roentgen irradiation of ptyalismus gravidarum (abs.), 204.
Biological action of radiation, some important factors in, 454.
The explanation of (abs.), 207.
Biological endocellular processes, effect of roentgen rays upon (abs.), 300.
Bismuth subnitrate poisoning with fatal issue following injection of Beck's paste (abs.), 506.
Bissell, Frank S., Chronic pulmonary streptococcicosis (abs.), 289.

Bladder, study of tumors of by means of pneumo-roentgenography (abs.), 498.
Blood anomalies in radiologists (abs.), 293.
Bactericidal power of, effect of radiation on (abs.), 92.
Groups, the relation of, to malignant disease and the influence of radiotherapy, 47.
Pressure and leucocytes, behaviour of during roentgen irradiation (abs.), 395.
Studies upon individuals working in radiologic institutes (abs.), 398.
Vessels, roentgenology of, especially those of the human lungs *in vivo* (abs.), 86.
Bloodgood, Joseph C., Paget's disease of the female nipple (abs.), 94; The differential diagnosis of central bone lesions (E), 384.
Blum, Theodor, Primary carcinoma of antrum (abs.), 500.
Bone lesions, central, differential diagnosis of (E), 384.
Multiple, a case of, with atypical roentgen findings and report of pathological findings (abs.), 584.
Regeneration of, after intensive radiation of malignant disease (abs.), 283.
Sarcoma of (abs.), 494.
Sarcoma, registry of (E), 384.
Tumors, clinical diagnosis of multiple (abs.), 207.
Tumors, *x*-ray findings in (abs.), 499.
Bones and joints, changes in, in scleroderma (abs.), 287.
Bornhauser, O., Holfelder, H. and Yaloussis, E., The intensity distribution of *x*-rays within the body (abs.), 285.
Boston, medical work in, 75.
Boyksen's serological diagnosis of carcinoma (abs.), 92.
Breast, carcinoma of, end results of treatment with surgery, radium and roentgen rays, 531.
Brehm, W., Sclerotizing strumitis with compression of the larynx as a late roentgen injury following thyroid irradiation (abs.), 586.
Bronchography, after injections of lipiodol (abs.), 284.
Brooks, Barney, Intraarterial injection of sodium iodide (abs.), 399.
Brown, Charles L. and Stiefel, Daniel M., A case of multiple bone lesions of atypical roentgenographic appearance with the pathological findings (abs.), 584.
Bucky, G., Die Röntgenstrahlen und ihre Anwendung (book review), 582.
Bucky stand, a new (abs.), 507.
Bumpus, Hermon C., Jr., Cystograms: Their clinical application and possible misinterpretation (abs.), 500.
Burg, K. M., Treatment with radiothorium of a case of myeloid leucemia and complicating gastric carcinoma (abs.), 504.
Burns, Frederick S., Radium in the treatment of non-malignant diseases of the skin (abs.), 585.
Buxton, St. J. Dudley, A radiographic study of the normal joints. 1. The shoulder joint (abs.), 295.

Calcification in the heart and pericardium, 312.
Of the pericardium (abs.), 96.
Calcified areas in the bony pelvis, shadows of (abs.), 292.
Caldwell lecture, 1924, 301.
Calibration of *x*-ray machines, apparatus for (abs.), 507.
Calm, A. and Dünner, L., The roentgenology of the blood vessels, especially those of the human lungs *in vivo* (abs.), 86.
Camp, John D., The normal and pathologic anatomy of the sella turcica as revealed by roentgenograms, 143.
Cancer, (see also carcinoma).
Experiences in the permanency of radiological cure in, 301.
Indications for radium and other methods of treatment in, 219.
Influence of radiation therapy on study of (abs.), 203.
Intraoral, treatment of (abs.), 205.
Mammary, the question of postoperative treatment of (abs.), 293.
Of cervix, treatment of by radium and *x*-ray (abs.), 587.
Of cervix uteri, summary of clinical results after irradiation of, 367.
Of cervix, what is to be expected of radium treatment of (abs.), 296.
Of the lip, radium treatment of (abs.), 290.
Of the pelvis, inoperable, treatment by radium, 378.
Of plants, experimental, therapeutic experiments in (abs.), 396.
Of uterus, clinical observations in treatment of (abs.), 205.
Of uterus, untoward results in radiotherapy of when complicated by salpingitis, 51.
Of uterus, treatment of with radium and the *x*-ray (abs.), 297.
Present status of radiation therapy in (abs.), 400.
Skin, radium treatment of (abs.), 296.
Some biological aspects of the radiation of, 97.
Therapy, facts and theories in (abs.), 505.
Cancerous ulcers of the stomach producing only reflex "duodenal" derangements, 230.
Canuyt, G. and Wolf, M., The effect of irradiation of different portions of the body upon nasal hemorrhages (abs.), 396.
Capillary microscopy of roentgen erythema (abs.), 295.
Capitulum humeri, separations of as the most frequent cause of arthritis deformans cubiti (abs.), 287.
Carcinoma (see also cancer).
Gastric, three cases of roentgenologic niche in (abs.), 290.
Mammary, radiation in treatment of (abs.), 298.
Mammary, roentgen radiation following radical operation for (abs.), 289.
Mammary, treatment by radiation and by surgery (abs.), 280.
Of cervix uteri, intraperitoneal insertion of radium emanation in, 352.
Of cervix uteri, massive dose radium treatment in, 373.
Of the antrum, radium treatment of (abs.), 505.
Of the antrum, treatment of (abs.), 205.
Of the bladder and prostate, radium treatment of (abs.), 295.
Of the breast, end results of treatment with surgery, radium and roentgen rays, 531.
Of the esophagus, treatment of by radiation, 471.
Of the larynx, radiation treatment of, 217.
Of the prostate, treatment of (abs.), 93.
Of uterus, radiation in treatment of, 370.
Primary, of antrum (abs.), 500.
Therapy, report of German Roentgen Society, 189.
Value of Boyksen's serological diagnosis of (abs.), 92.
Cardiac area in man, estimation of, 252.
Cardiology, relative value of percussion and *x*-ray in (abs.), 96.
Carman, Russell D. and Fineman, Solomon, The roentgenologic diagnosis of diaphragmatic hernia, with report of seventeen cases (abs.), 289.
Carman, Russell D. and Counseller, Virgil S., Roentgenologic diagnosis of cholecystic disease with the aid of the sodium salt of tetrabromphenolphthalein, 403.
Carman, Russell D. and Davis, Kenneth S., Roentgenologic evidence of spinal cord tumors; report of three cases (abs.), 496.

Carr, W. M., A case of hair ball (abs.), 501.
Carter, L. J., Intestinal bands and intestinal adhesions —differential diagnosis and treatment—a plea for more accurate nomenclature (abs.), 203; Pathology in the right upper abdomen (abs.), 496.
Cary, Eben J., Multiple bilateral traumatic parosteal bone and callus formations of the humerus and left innominate bone (abs.), 95.
Cascade or pressure hour-glass stomach (abs.), 502.
Case, James T. and Warthin, Aldred Scott, The phagocytosis of nuclear material (chromatin) by the reticulo-endothelial system, the Kupffer cells in particular, after intensive roentgen irradiation in a case of primary abdominal lymphosarcoma, 102; The occurrence of hepatic lesions in patients treated by intensive deep roentgen irradiation, 27.
Castration dose of radium, animal experiments to determine (abs.), 86.
Cells, effect of roentgen rays upon, modifications by ligation of vascular connections (abs.), 397.
Effect of roentgen rays upon oxidation velocity of (abs.), 506.
Susceptibility of to radium emanation (abs.), 506.
Cervical rib; report of seven cases (abs.), 96.
Spine, variations of (abs.), 88.
Cervix, cancer of, treatment by radium and *x*-ray (abs.), 587.
Uteri, intra-peritoneal insertion of buried capillary glass tubes of radium emanation in carcinoma of, 352.
Uteri, massive dose radium treatment in carcinoma of, 373.
Uteri, summary of clinical results after irradiation of cancer of, 367.
Chamberlain, W. Edward and Newell, R. R., Wave form and efficiency; an analysis of roentgen therapy machines, 509.
Chest, gross pathology of (abs.), 293.
Infections in childhood, the *x*-ray diagnosis of (abs.), 495.
Chilblain, roentgen treatment of (abs), 282.
Childs, Samuel B., Case report of a fecalith (abs.), 501.
Cholecystic disease, roentgenologic diagnosis of, with aid of sodium salt of tetrabromphenolphthalein, 403.
Chondroma, multiple, unilateral type of (abs.) 89.
Choyce, C. C., A System of Surgery (book review), 392.
Christie, A. C., Groover, T. A. and Merritt, E. A., Pulmonary tuberculosis as a cause of pain in the shoulder (abs.), 497.
Claessen, G., Three cases of roentgenologic niche in gastric carcinoma (abs.), 290; Radiation treatment in certain forms of surgical tuberculosis (abs.), 293.
Clark, George L., The versatility of roentgen rays (E), 556.
Clark, Wm. L., Morgan, J. D. and Asnis, E. J., Objections to the use of radium emanation in bare tubes, with clinical and histological observations, 519; A preliminary report on a modified *x*-radiation technic (abs.), 508.
Clift, M. William, Roentgen-ray studies of the feeble minded, 23.
Coagulability of the blood, effect of the irradiation of different regions upon (abs.), 398.
Cole, Warren H. Graham, Evarts, A. and Copher, G. H., Visualization of the gall-bladder by the sodium salt of tetrabromphenolphthalein (abs.), 92.
Colebrook, L., Eidinow, A. and Hill, Leonard, The effect of radiation on the bactericidal power of he blood (abs.), 92.
Colloidal solution, effect of wave length upon flocculation of, by roentgen rays (abs.), 396.
Colon, diverticulosis and diverticulitis of, 242.
Giant, report of case with impacted feces in the sigmoid (abs.), 503.
The redundant, 414.
Coloptosis, studies on problem of (abs.), 88.
Copher, G. H., Demonstrations of spontaneous pneumoperitoneum by the roentgen ray (abs.), 401.
Copher, G. H., Graham, E. A. and Cole, Warren H., Visualization of the gall-bladder by the sodium salt of tetrabromphenolphthalein (abs.), 92.
Corbett, J. J., The effect of radium on glaucoma (abs.), 586; Radium clinic for treatment of eye, ear, nose and throat conditions (abs.), 586.
Cori, Gerty T., The effect of *x*-ray on the skin of vitally stained white mice (abs.), 95.
Corns, action of roentgen rays on, 482.
Costolow, Wm. E. and Soiland, Albert, The short wave *x*-rays in other than deep conditions (abs.), 291.
Counseller, Virgil S. and Carman, Russell D., Roentgenologic diagnosis of cholecystic disease with the aid of the sodium salt of tetrabromphenolphthalein, 403.
Craver, L. F., The value of physical signs in the early detection of pulmonary metastases (abs.), 501.
